SUMMARY

Senior Front-End Engineer with 6+ years delivering fast, accessible web apps for 10,000+ daily users. Deep in **React**, **Next.js**, **Angular**, **TypeScript**, **RxJS** with solid back-end chops (**Node/NestJS**, **Django REST**) and data tooling (**PostgreSQL**, **Prisma**). I build design systems, mentor teams, and ship performance wins (e.g., **-40% load time**, **-60% unnecessary API calls**). Pragmatic about architecture (SOLID/DRY), testing, and CI/CD—always in service of a smoother user experience and easier maintenance.

CORE SKILLS & TOOLS

Frontend: React, Next.js, Angular, TypeScript, JavaScript (ES6+), RxJS, Redux, Chart.js, AG Grid, HTML5, CSS3, Responsive UI, PWAs

Backend: Node.js, NestJS, Express, Django REST

Data/Infra: PostgreSQL, Prisma, Redis, Docker

Testing/CI: Jest, Cypress, Playwright, Git, CI/CD

Concepts: Web Performance, Accessibility (a11y), REST/GraphQL, Design Systems, Micro frontends, Security basics

EXPERIENCE

System Group, Tehran, Iran

2021–Present

Senior Front-End Engineer

- Delivered 50+ production pages and reusable components in **Angular / TypeScript**; used **RxJS**, **Chart.js**, **AG Grid** to simplify complex data workflows and boost usability.
- Migrated a legacy module into a **microservices** architecture; streamlined onboarding (**~20% faster**) and improved customer satisfaction through clearer flows and faster feedback.
- Established coding standards, code reviews, and SOLID/DRY patterns; reduced production defects and increased maintainability across multiple teams.
- Built a shared **UI library** and **RxJS state** layer, removing **3,000+ duplicate LOC** and lowering unnecessary re-renders by **40%**.
- **Redesigned a customer portal in React + Redux**, increasing engagement by **25%** and cutting page load time by **40%**.
- Mentored 3–5 engineers; led design reviews and pairing sessions to raise code quality and delivery speed.

Nebig, Mazandaran, Iran

2019–2021

Full-Stack Engineer

- Co-launched a **React PWA** and hybrid app; **service-worker caching** reduced first-load time by **40%**.
- Authored **60+ Django REST** endpoints (JWT, RBAC) with **80%** test coverage.
- Modeled an 8M-record **PostgreSQL** database; tuned hot queries to **< 200 ms**.
- Built a scraping pipeline (**BeautifulSoup**, **Celery**) aggregating data from 50+ publishers.
- Shipped React/Ant Design admin dashboards enabling self-serve inventory and content management.
- Served as customer/PM liaison, reducing feature turnaround time by **66%** via tighter feedback loops.

PROJECTS

Localized Booking & Payment Widget (2024)

- Embeddable widget with **Pasargad**, **Saman**, **Zarinpal** gateways; SMS/Telegram reminders.
- REST API (**Express + Prisma**) responds in **< 100 ms**; **85%** Jest/Supertest coverage.

Next.js E-Commerce Store — Next.js, Prisma, PostgreSQL

- SSR/ISR shop with **< 200 ms TTFB** and 95+ Lighthouse; Redis cart; Zarinpal + Stripe checkout.
- Deployed on Vercel with Playwright E2E tests; stable to **1,000** concurrent users.
